I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I've got 2 children to raise with SANE mind. I was hormonally imbalanced for 3 yrs (very sick) + since the use of natural progesterone, I have been able to regain health to MANY symptoms + return to the calm, patient + kind person that I know I am for 3 years now. My life has been restored with the help of these compounds. Medical doctors are unaware of this benefit, maybe you could educate them before you ruin many lives by taking this safe medication away. For 3 years Prozac + Zanax were all that Med. doctors could offer me. It made me sicker + fixed nothing. I could have hurt somebody... or myself + I have children. I searched long & hard for an answer with no help from Medical society + I found it through Madison Pharmacy. By taking our right to choice you will deprive our future adults the right to a normal mother. We will have anxieties + depressions + be too sick to give our children the attention they need. I could get 40 or so signatures proving the quality + improvement of my life since the use of natural progesterone. I went from sane to insane to sane again + it had everything to do with imbalanced hormones that Med. doctors never even considered.

Please fold, seal, and mail by March 22
